## **NOTICE TO MEMBERS**

APRIL 5<sup>TH</sup> 2023

Addendum to Letter 1 issued April 4<sup>th</sup>.

Many of you have responded this morning suggesting that the City should install facilities at the venues or that we should canvas the City to do so.

If you refer to our monthly Executive meeting reports, you will see that the Club has been in constant communication with the City on the matter.

We have been advised that there is no budget planning for such facilities. We have asked about portables (Johnny-on-the-spot) and indicated that we may be willing to pay on a pro-rata basis. The City responded that it would not be possible this year as it would require public consultation and should be raised at the end of this season to get things rolling for next.

We have also contacted other user groups for support, but they have indicated they do not see it as a problem and would be unwilling to participate financially.

Hence our request.....
